Intelligent water solution

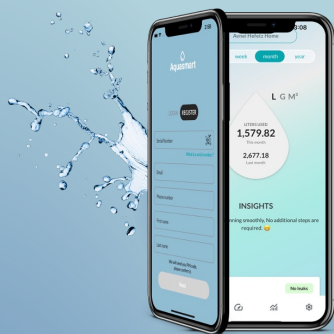

AQUASMART: CLIP-ON

AquaSmart Clip-On – The Revolution in Water Management

Protect your home from water leaks before it's too late!
The **AquaSmart Clip-On** is a smart and autonomous solution that detects water leaks in real time, allowing you to act before water damage occurs.

Key Features:

- Ultra-precise detection
- Smart connectivity
- Battery life up to 2 years

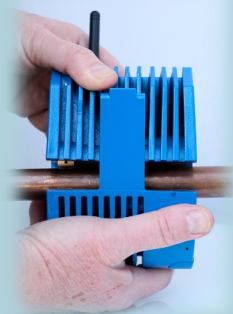

Why Choose AquaSmart Clip-On?

- ✓ **Super easy installation** – No plumbing required! Simply clip the device onto your pipe.
- ✓ **Advanced leak detection** – Identifies abnormal water consumption and sends live alerts.
- ✓ **Save on your bills** – Prevent waste and reduce costs caused by invisible leaks.
- ✓ **Insurance-friendly** – Our insurance partners encourage the use of Clip-On to reduce water damage claims.
- ✓ **Smart & Connected** – Monitor your water usage from your smartphone with the **AquaSmart** app.

How Does It Work?

- 1 **Clip it** onto your pipe – No tools required!
- 2 **Connect it** to the app via the QR code on the device.
- 3 **Monitor & receive alerts** – Real-time leak detection with personalized recommendations.

Technical Specifications:

- ◆ **Connection type:** 4G
- ◆ **Power supply:** Autonomous battery (up to 2 years)
- ◆ **Material:** Moisture and shock resistant
- ◆ **Compatibility:** Works on all types of pipes (copper, PVC, steel, SP, PEX...)
- ◆ **Mobile app:** iOS & Android
